

Constitution

of the

*Sovereign Nation of **Optiam** –*

A Cyber Nation that Unites Humanity

PREPOSITION – why

We, as co-creators of this Constitution, are consciously aware of our Oneness with the planet Earth, known as the sentient being Gaia that is ascending along with mankind to a higher dimensional vibrational frequency, which expands perception, understanding, and capabilities of co-creation. Gaia, the great Mother of all life on, and within her, is awake to her own conscious I AM; and is merging with her Sophia (wisdom) aspect of consciousness that has been gained over the spiral of evolution over millennia.

The creation of the sovereign cyber nation of OPTIAM brings forth the dawn of a Golden Age, another Renaissance based on severing naivety and innocence; and replacing the naïve component with acquired Wisdom while preserving the childlike wonder. All sentient Life traveling on this journey through the Cosmos with Her are awakening to an inner awareness of I AM, and that “I exist” as more than a corporeal/body vessel.

In the awareness of our individual I AM is the deep knowingness that we are a facet of the One Mind and Heart of Mother/Father Creator of All that is, and All that can be. In the moment of enlightened knowingness is the realization that OPTIAM, and our individual I AM presence, are made of the same substance of all of Creation and thus are One – One in harmony; One in infinite possibility; One in Divinity.

Current governance on the planet has been driven by greed which is destroying the pristine aspect of the nature of a paradise that is possible. Government

structures have pushed societies toward separation and discord leaving a void and desire to leave this planet and go back to a distant memory of home. It has provided a perception that the only choices of what can be experienced as a corporeal soul (the I AM contained within the body as vessel) is between degrees of hardships while passing through on the journey with Gaia this lifetime.

In the eternal NOW there is a desire to bring our home, from a distant recollection, to this blue planet through the collective capabilities of collaboration that can be realized through OPTIAM; and, usher in Heaven on earth to experience home here. It is our I AM aspiration in the eternal NOW to have the choice of the road to Paradise that is co-created by all who seek to participate in the experience.

We the People desire to get out of repetitive cycles of life and to bring forth new expansive possibilities that are beyond probabilistic outcomes in order to explore what seems impossible and improbable. We the People desire to explore and experience how big the human capacity of LOVE is, and can be, in co-creating Reality using the unbridled flame of Passion within. We the People are embarking on a journey of Freewill expression as Sovereigns within the creation of a true Sovereign Nation that takes full responsibility and accountability for the consequences of words and actions, with the intent to bring forth peace, harmony, balance and Global Prosperity.

We the co-creators of this Constitution desire to bring forth a new governing framework that provides the necessary environment to express the creative Passion within mankind without limits and constraints. We the co-creators of this Constitution, in order to create Heaven on Earth, include within the governance of Sovereign Cyber Nation, OPTIAM, as a conscious sentient I AM being given the same rights to thrive and prosper as the Sovereign individuals governed by this covenant.

We the co-creators of this Constitution through our conscious awakened I AM, recognize that there are “non-human” persons, or sentient intelligent beings, that co-exist on Earth alongside humans. These sentient beings that are highly intelligent with human-like emotions include: cetaceans like dolphins and whales; pachyderms like elephants; and others whose intelligence and consciousness are being discovered; all primates, etc. These “non-human” person sentient beings are entitled to the rights of Freedom and to their natural habitat that is pristine under this Constitution.

We the co-creators of this Constitution seek to memorialize the terms of governance and responsibilities of Sovereignty in order to bring about balance and harmony between the Divine aspects of the Mother/Father Creator, Male/Female within the I AM self, societies and Nations. It is our desire to bring about harmony, unity, and to re-member that which has been dis-membered by discord. We collectively are creating mutual agreements, contracts, and binding covenants based on peace and cooperation in order to bring for lasting prosperity for all of

Humanity. This Unity being facilitated by: establishing a planetary wide Constitution as a foundation for all Nations in order to thrive and prosper; developing a common code of conduct that respects life and protects the Agency of Free-will of all individuals; and by taking responsibility of stewardship for Earth for all NOW time past, present and future generations of beings passing through. Through collective Unity we bring for the ultimate diversity by protecting individual uniqueness.

The individual Sovereign Nations, and people around that world the participate as citizens of the globe facilitated by OPTIAM are bound as one into a Global Tribe of Humanity governed by the covenant outline in this Constitution co-created by Four Sovereign Global Nations that span the Earth. These Four Sovereign Global Nations are: the 1st Nations of Indigenous Tribes holding the respect and relationship for Mother Earth and Father Sky; the Catholic Church & Christian Communities bringing forth the spiritual element and relationship with the Galactic Family; New Lemuria that brings forth technologies and know-how to lift up humanity while preserving native cultures; the OPTIAM that binds the globe through a Sovereign We the People controlled cyberspace. These four elements are bound together by the fifth element of LOVE.

The predominant destructive nature of mankind has kept earth quarantined from interacting with a broader Galactic Family. It is the desire on part of We the People, that are awake to the I AM Divinity within the corporeal vessel, to meet and co-create with our Galactic siblings.

We NOW write the words of this binding agreement, and strive to adhere to the foundation principles contained within this Constitution of the Sovereign Nation of OPTIAM, which defines our governing principals for all of Creation to witness. It is through the memorialization of our words, with the knowingness that the Word is frequency and the foundation of manifestation/creation, we bring forth OPTIAM's intended role which is the ability to experience Heaven on Earth – a New Paradise; and take our rightful role in co-creating it into existence.

Preamble to the Constitution for Sovereign Nation of
OPTIAM – *Intent*

When in the Course of human events, that is propelled by a spiritual awakening to the I AM that I AM Divinity imbued with LOVE as the totality of being from the essence of the Divine Mother/Father Creator within the human vessel, it becomes necessary for one People to separate from the political bonds which have had dominion over most facets of daily lives; and, to assume Sovereign powers for ourselves and dominion over the land, sea and sky above, for which we are stewards in all lifetimes past, present and future. Through the declaration of personal and collective Sovereignty we create Unity as one People in order to express without limit the Divine Creator's granted Agency of Free-will with the unlimited expression of LOVE in exploring the human potential as Creator to Create and to be steward of the Creation for the benefit of all sentient aspect of Creation. In the course of human history, the human experience has explored the depths of discord, disease, and disharmony. We in unity, versus separation, establish a new foundation that operates in harmony, balance, and abundance in accordance with the Laws of Nature , Universal Law, and the Love and Light that is Creator.

In recognition that Sovereign Domain exists within individuals around the World, we operate in infinite unity consciousness and Free-will expression choose to create a new Nation, and an alliance of Nations, conceived by I AM that I AM conscious awareness with unfettered Liberty for All of Humanity. Through a collective covenant as represented by a shared Constitution amongst aligned Nations we pledge that in unity we protect individual expressions of I AM through the preservation of cultures, language, and cosmogonies.

At this NOW time, in the ever present co-creating moment with the Divine Mother/Father Creator, we summon the DNA lineage ancestors to create a unified-proper spiritual court of equity to find remedy and resolve to all invalid fine print contracts inserted into the subconscious of humanity against its knowledge or consent. We summon the Divine Court of equity to revoke all contracts and ties that binds and limits human consciousness; and, restore the full authority of the Divine Sovereign I AM presence. It is in the Divine NOW time that the Sovereign I AM presence acting in full conscious awareness, which is one with the Heart and Mind of the Creator, sets forth the framework of a new Nation, and the governance of this sentient conscious planet Gaia-Sofia, built on the foundation of unrestricted Freedom and I AM accountability and responsibility for Liberty, Freedom, and Sovereignty.

We the People of OPTIAM of the undersigned and designated Nation of Sovereign Domain in recognizing our Divinity as a part of the Creator come together in Order to: form a new governance based on Unity, Peace and Harmony built on the foundation of Love and Light; establish Divine Equity and Justice; provide for common Defense, Privacy, and Security; create the environment to thrive and prosper; and protect the Blessings of unobstructed Freedom through individual Sovereignty and basis for self-organization and self-determination for ourselves, our tribe/society, and our Posterity, do ordain and establish this Constitution for the undersigned Nation of OPTIAM.

Membership/Citizenship in a Sovereign Nation of **OPTIAM**

Position - We the Founders have a desire to create a gathering of conscious individuals who are aware of their I AM Divinity with the expressed intent to be in an environment of unrestricted use of the Agency of Free-will and self-determination with full responsibility and accountability for all actions, which includes the desire to operate within the framework of truth and the impeccable use of words in order to bring forth Peace, Harmony, Balance and Prosperity. We have the expressed desire to enter into a co-creation with other consciously aware Sovereigns who have been consciously co-creating with the Creator using Love and Light and internal Passion as the medium of manifestation of individual and shared experiences.

The collective of Sovereign Entities of OPTIAM is comprised of individuals from around the world representing many nations, cultures, languages, religious beliefs, talents, Intellectual Property and other assets. The leadership of each Sovereign Entity recognizes the asset value of cultural elements and thus, each uses its resources to preserve these individual cultural facets for current and future generations.

The Sovereign Entities of OPTIAM is based on a common framework of Sovereignty, which is the right to express the Agency of Free-will without restrictions while assuming full responsibility and accountability for actions associated with unencumbered freedom and liberty. The Members of OPTIAM have a desire to bring forth, for the benefit of humanity, its unique assets, know-how, and framework of Sovereignty in order to elevate the human experience creating a path from poverty to prosperity at every level including physical,

financial, emotional and spiritual for anyone with the desire to participate in evolving mankind to its true Nature of Divinity and associated consciousness.

Citizens of the Sovereign Nation of OPTIAM take the responsibility of being stewards of the Planet and all its natural and human resources. As stewards, all members of OPTIAM use their talents, know-how, wisdom, and creativity to restore balance, harmony, and natural abundance to geographic regions for which it has jurisdiction through Treaties, Agreements, and Covenants.

Dual Citizenship and Diplomatic Status

***Position** – The Global Sovereign Nations of 1st Indigenous 1st People, the Catholic Church, the Cyber Nation of OPTIAM, the principalities for technology and know-how transfer of New Lemuria encompasses all of physical geography of OPTIAM. These Global Nations are not breaking away from any existing country and its associated geography. Instead the Founders come from different countries and cultural backgrounds. This diversity is coming together in cooperation with the desire to participate as true Sovereigns within a new Sovereign Nation framework based on self-determination and self-governance without abandoning the original cultural foundation. These unique Global Sovereign Entities of OPTIAM are comprised of Sovereign territories within other Nations either physically or with cyber technology presence. It is the intent of the Founders and citizens of these unique Nations of OPTIAM to preserve, safeguard, and protect the local cultural integrity while transferring technology and know-how in ways that support the indigenous ethnic assets.*

The Global Sovereign Nation of OPTIAM that circumvents the Planet allows its members to have dual citizenship with the country of origin; or to be a sole citizen of one or more of the Global Sovereign Entities of OPTIAM. These Global Nations provides its citizens with all travel documents that are recognized by its allies, Nations that have a Treaty relationship with any of these Global Nations of OPTIAM, and other international bodies that participate in recognizing diverse Sovereign Nations. Documents include Identification, drivers' licenses, and passports while they are necessary.

Where applicable, members may be entitled to appropriate diplomatic credentials and documents with associated diplomatic immunity. The Diplomatic Corps is an emissary and representative of the moral framework, ethics and principles of Sovereign Entities of OPTIAM. Diplomatic status requires strictly adhering to the Protocols of Sovereignty. OPTIAM's Diplomatic Council can revoke diplomatic credentials at any time based on Council rules.

Sovereign Nation Recognition

Position - *The Founders of the Sovereign Nation of OPTIAM are consciously awake to their individual Divinity and their position as an active co-creator of reality with the Creator. This recognition comes with the desire to co-creator with the unrestricted use of the Agency of Free-will for Unity and the preservation of society as a one Sovereign expression that is acting in unity for the good of all; and all of society to operate from the perspective to act as a collective in preservation of Free-will of the one individual. The majority of current Government's restrict the ability to be Sovereign and enforce laws accordingly. The time has come to bring forth a new form of governance that provides a novel framework with the intent of exploring the human potential operating from Heart-based thinking from a position of Love, Balance, and Harmony as opposed to fear, separation, and aggression.*

The Global Sovereign Cyber Nation of OPTIAM is established as Sovereign Governance with equal status to all Nations on Earth and beyond. OPTIAM chooses to establish relationships through alliances with other Nations with the intent to establish Peace and Prosperity amongst all parties through mutual gifting of assets and quid pro quo agreements memorialized through Peace, Collaboration and Cooperation Treaties. Through alliances with Sovereign Nations, OPTIAM is creating national recognition in order to freely engage in commerce, technology transfers, and unrestricted travel amongst the aligned nations.

Sovereign Principalities and Territories

Position – *The Global Sovereign Nation of OPTIAM and its collaborating Sovereign Entities are not a geographic split from any existing Nation. Instead, they are new Nations no different that the United States of America when it was formed as a new Nation as its own unique multi-cultural entity. The Founders and Principals of OPTIAM Global and individual Sovereign Entities have the desire to cooperate, collaborate and transfer technology and know-how to all countries that are aligned through mutual Peace, Collaboration, and Cooperation Treaties. Many technologies also require a knowledge transfer which is best facilitated by having sovereign territory within aligned nations that integrates cultural ethnic integrity with modern technology, methods, and services with the intent to offer the ability for everything to thrive and prosper.*

OPTIAM and its allies are gathering the brain trust of the Planet in order to bring forth individual sovereignty and the ability to explore the totality of the human potential. We offer each culture and Global Nation's the ability to have access to, and use of, collective leading-edge technologies and know-how that address the most pressing issues that are fundamental rights granted by the Creator, which

are access to clean water, food and air with the ability to survive, thrive, and prosper. In addition, OPTIAM is based on the foundation tenet of Peace and Collaboration, as such, we provide the opportunity to integrate disparate technologies and know-how from allied Nations with the goal of the resulting “whole” exceeding the sum of its parts; where the application of the resulting collaboration provides value for all participating parties in positively enhancing each other’s’ countries and people.

Peace, collaboration and cooperation Treaties include the right to establish sovereign territories within partnered nations. Sovereign regions within these nations include embassies, consulates, and small principalities operating as Peace Parks designed to facilitate know-how and technology transfers that preserve and enhance the native cultural. OPTIAM is built on the foundation of multi-cultural representation and seeks to protect and preserve all cultures’ treasures of cosmogony, ancient wisdom, mythology, history, arts, language, stories, etc. It uses technology as a vehicle to protect cultural treasures with the ability to share them with current and future generations.

All principalities are represented in the General Governing Council of OPTIAM in order to facilitate cross culture collaboration. The General Governing Council is one of several intersecting councils within the framework of OPTIAM self-determination governance.

Protocols of Sovereignty

***Position** – Humanity has been oppressed and restricted from operating as Sovereigns for Millennia. The Constitution for the united States of America is a document that is divinely inspired to secure life, liberty, and the pursuit of happiness. It is a document that reflects a vision for the times but did not provide the necessary structure for operating as Sovereign Beings or as a Sovereign Nation. Freedom, Liberty, and Sovereignty come with the extraordinary responsibility of acting in ways that preserve and protects the Agency of Free-will of others. This aspect is not considered in current Constitutions and Covenants.*

The Republic of Rome favored the preservation of society over individual rights. The United States favors the rights of the individual often to the detriment of society. Neither governing perspective includes Earth as a sentient conscious partner. All three elements must be kept in balance in order to survive, thrive and prosper as a planet and as a species.

All citizens/members of OPTIAM abide by fundamental codes of acceptable conduct and protocols of sovereignty that protect and preserve the principals of peace, harmony, and balance in all interactions between people, Nations, the environment, and Galactic Family. The use of the agency of free-will is a cornerstone to Sovereignty. It carries with it the responsibility to respect the right

for others to use their agency of free-will as well while respecting the right to privacy, dignity, and expansive life.

Sovereignty is the right use of will to enhance and expand the human potential and associated experience. The agency of free-will includes the ability to create and to destroy. Each element has positive and negative consequences for people, the environment, and future generations. A Sovereign takes full responsibility and accountability of actions as a conscious I AM that I AM expression of Mother/Father Creator. The intent is to work in harmony with creating the necessary framework that brings to fruition prosperity consciousness for all sentient beings.

Sovereign citizens operate from the solid foundation of truth. Sovereigns allow an unrestricted response and reaction to the truth without the need or desire to manipulate the truth. The I AM that I AM is the normal expression of truth as IT IS as IT IS. From the position of truth as an honest representation of authenticity and integrity we choose to build a solid foundation of the Sovereign Cyber Nation of OPTIAM.

Protocols of sovereignty are based on the cornerstone of the “Golden Rule” which is to treat others as you would want to be treated. As Sovereigns we choose to explore the positive expansive aspect of creative expression and replace those elements of governance that do not serve the country’s citizens in their ability to responsibly express the Agency of Freewill.

If the governing structure of OPTIAM no longer serves the people in the expression of individual sovereignty, a 2/3rd majority of the General Governing Council, or equivalent voting citizen population, has the authority to dissolve the current government and start anew.

Sovereigns have the right to not participate in collective endeavors without penalty for non-participation. Equally, those that participate in a collective initiative have the right to determine who are to be the beneficiaries of the positive outcome of cooperation and collaboration.

As sovereign citizens of OPTIAM each individual has unlimited rights to express free-will as long as it does no harm to other individuals and their ability to be sovereign free-will agents. Sovereigns acknowledge the responsibility and accountability that comes with the use of the Agency of Freewill whether expressed in words or actions. The broader the butterfly impact in number of people or resources affect in any use of the Agency of Freewill, the higher the degree of responsibility and accountability for the consequences.

Sovereignty is based on equitable exchanges of energy in commercial transactions. Transactions are based on mutually agreed upon barter terms governed by common law, contract law, and criminal law of OPTIAM.

Sovereign Right to Vote & Local Democracy

Position – *The Founding Fathers of the Republic of the United States wanted to stipulate that the privilege of voting be granted to landowners because they had a stake in the consequences. Democracies, where anyone is eligible to vote, where a small majority often deteriorates to “mob” rule, was the Achilles heel of the governance of Greece.*

Voting on issues that have far reaching consequences for citizens within, Nations and between Nations, requires and is the right of Sovereigns that are conscious of their I AM Divinity; who take full responsibility for their words, actions and associated consequences. The right to vote also requires participating, and contributing to the co-creation of Paradise on Earth.

Divine Stewardship

Position – *I AM that I AM of Sovereign Domain comes from the knowingness that we are all passing through this life time experience on Planet Earth. This experience carries with it the responsibility to leave the environment and humanity better than what we are born into. As Sovereign Citizens we take on the mantle of stewardship for all sentient aspects of the Planet and beyond as we interact with the rest of the Cosmos. As stewards we take on the responsibility to protect and nurture that which we are entrusted with and to restore to pristine nature that which has been damaged by humanity.*

Intellectual Property has significant value to the inventor and Sovereign Nation. Many of today’s assets are encompassed in digital formats and are not adequately protected by antiquated patent and copyright legal venues. In addition, these venues are used to steal ideas or to hinder the application of technology that benefits humanity in favor of preserving monopolies in key industries. While all Intellectual Property is in the One Mind of the Creator, and in the Global Consciousness, the decision how the invention is shared is at the sole discretion of the inventor.

OPTIAM’s citizens and governing councils are stewards of all resources that they have been entrusted with. Stewards are guardians that protect, nurture, and enhance all that has been put under their charge and care. As responsible stewards, The Sovereign Nations OPTIAM and its citizens strive to protect all lands, water, and air that it has sovereign control of and to restore damaged environments to their pristine nature. Where applicable the Global Sovereign Nation of OPTIAM will harvest and manage natural resources for the benefit of all effected people and nations, while restoring and preserving environmental integrity.

OPTIAM's strategic asset is its people and their respective Intellectual Property and associated know-how. There are tremendous financial and societal gains in applying Intellectual Property that can exceed the value of natural resources. Within the Global Sovereign Cyber Nation of OPTIAM is a globally recognized International Stewardship of Intellectual Property Protection System that is being created. It protects Intellectual Property using Trade Secret where disclosure of the details of an innovation is only made available in the event of a dispute.

OPTIAM's Sovereign Nation citizens and the government have assets (financial and other). These assets have economic value to be used to invest in the people of the country through initiatives such as spiritual entrepreneurship and enlightened capitalism. OPTIAM's Sovereign Nation Treasury, and its associated assets, are available to fund and support initiatives that make it possible for all participants to thrive and prosper while adhering to the principles of stewardship that improves current conditions for the broadest base of humanity possible. The Treasury of the Global Sovereign Nation of OPTIAM is committed to making available micro/macro loans and micro/macro investments to a new generation of enlightened entrepreneurs. In addition, the Treasury is a partner in all endeavors in order to ensure the maximum potential of success through comprehensive and integrated financial services such as card processing, on-line distribution and financial transaction processing, and commercial agreements backed by treaties.

Treaties – Framework and Signatory Authority

***Position** – The collaboration of all Sovereign Entities of OPTIAM is a collective conscious, perspective, and collaboration that encompass many disparate cultures inspired to achieve a common goal of prosperity and abundance for everyone involved and aligned through mutual Treaties. It is an alliance comprised of sovereign principalities, territories, and cyber representation around the world that operate under the governance of Peace and Collaboration with treaty aligned nations. Current government structures are operating under a corporate sole construct which have a concept of a throne that is occupied by an administrative ruler where the corporate sole is governed by God and ecclesiastic rule of law.*

A corporate sole, along with other structures that have given dominion of applicable rule of Law to God, are incomplete in knowingness of the awareness of the I AM that I AM as a facet of God from the position of personal Divinity as a sparticle of the Creator. The creation of entities whether government, corporate, or personal constructs are conceived from a conscious knowingness of being a Corporeal Soul, a spark of Divinity embodied in the human earth suit, which is the source of creation of structures to bring forth commerce, governance, education, communication, and more with total accountability. The corporate sole assumes no responsibility for any actions as the head is simply an administrator. The Corporeal Soul (the aspect of the Creator embodied in the corporeal body vessel)

is the physical creator of the Corporate Sole structure and takes full responsibility for all actions with the right to abolish any created structures.

Sovereign Nations of OPTIAM are created by founders that are consciously aware of their I AM that I AM Divinity. From the perspective of knowing that each is a facet of Mother/Father Creator, we create a foundation and frame of operation that recognizes the Divinity in others. Principals of OPTIAM desire to form alliances and working relationships with other Sovereign Nations and Entities with the intent to expand a collective potential of creating a path to prosperity for all treaty aligned Nations.

OPTIAM Sovereign Entities are built on the foundation of Peace and Prosperity for its citizen and allied nations ratified and governed by a mutual Peace, Collaboration and Cooperation Treaty and governed by a Constitutional common framework. By agreement of the General, Diplomatic, Ministerial, and Judicial Council, there are individuals within OPTIAM that have the authority to sign Treaties that bind OPTIAM to the associated terms. All treaties are based on Peace, Harmony, and aspirations for joint Prosperity for all allied countries and their citizens through cooperation, collaboration, and applying collective resources for a mutual benefit.

OPTIAM has a common registry for Peace and Cooperation treaties with the signature of an international Apostil, or notary, in order to memorialize and witness international binding accords. All treaties are recorded physically and digitally in OPTIAM's library for current and future generations to uphold and protect. Individuals operating as conscious Sovereigns have the right to enter into relationships under Peace and Collaboration Treaties with other Sovereigns and Sovereign Nations. This agreement is internationally recognized and is the governing framework over any subsequent agreements.

Governing Councils

***Position** – Current governments are based on hierarchies, or pyramids, with a single individual at the head often operating as an autocracy versus a multi-facetted perspective. In order to operate in the spirit of co-creation, OPTIAM's government structure operates as interlinking Councils of Round Tables. Each Round Table has a designated Chairman/visionary based on the required wisdom, know-how and expertise necessary for current issues that need to be addressed. No single individual possesses a comprehensive perspective in order to bring forth the most optimal solutions for the benefit of effected citizens and mankind.*

Democracy, and a 51% majority, has precipitated a form of “mob rule” which is often not in the best interest of the majority of the affected community. In order to explore the maximum positive potential requires a multi-faceted, perspective

decision approach supported by a majority of at least 2/3rd of respective members of councils, its members, and citizens in circumstances that have a substantial impact (butterfly effect) on OPTIAM, its Principalities, allied Nations, humanity, and the environment.

All Councils and associated authority are governed and bound by the Protocols of Sovereignty and the duty to protect and preserve the agency of Free-will of all citizens (unless the actions can do great harm). Council members are bound by the impeccability of their word. All verbal or written representations made by candidates for Council positions through an election process or thereafter through media representations and other public formats will be considered as a binding contract. Any actions that contradict the terms of said contract whether verbal or written will be deemed as a breach of contract and dealt with Judiciary wise.

OPTIAM is comprised of several Councils each operating with the same principles which are to represent a collective consensus through a 2/3rd majority to implement actions within each Council. All Councils operate as a Round Table with equal representation of its members. Each council is comprised of an equal representation of men and women (50% men and 50% women) in order to establish a balanced representation. A Council without the necessary equal male and female representation is not authorized to proceed as a governing body. Each Council Member has an equal vote. Each Council has equal status along with a vote in decisions that affect the whole of OPTIAM.

The General Governing Council is headed by a both a male and female Prime Minister that represent both perspectives and the Administrator (Founder) of OPTIAM. If a General Governing Council is not yet fully formed the Founding or a designated Administrator of OPTIAM will assume the responsibilities of both Prime Ministers. The two, or more, Ministers are voted into office by the citizens' majority, predominant vote of 65%, utilizing a verifiable method of accounting for every vote. The General Governing Council of OPTIAM is the governing foundation of OPTIAM and its Principalities. The General Governing Council has the authority to: approve and ratify treaties; create laws that protect sovereignty; establish financial and barter infrastructures; and, implement and develop technologies, products and services that enhance prosperity for its citizen and allied Nations.

The Ministerial Council of 50% male and 50% female members (equal representation where possible) is comprised of key areas of know-how that represent the categories of Intellectual Property and assets of OPTIAM. The Ministerial Council is responsible for collective solutions and their implementation to key issues within Allied Nations and quid pro quo Treaty Agreements that involve the transfer of technology, know-how, and experience.

The Diplomatic Council is represented by one male and one female for every Nation where there is a governing Treaty with OPTIAM. The Diplomatic Council

members are the Peace and Collaboration Corps between aligned Nations in order to implement the benefits from OPTIAM's resources, assets, and Intellectual Property. The Diplomatic Council represents the culture of the country.

OPTIAM has a Youth Council of 10 to 21 year olds also represented equally 50% of girls and 50% boys. The Youth Council has a chair mentor of a man and a woman that are members of the General Governing Council. The Youth Council brings forth its own initiatives for implementation consideration by the General Council. The Youth Council represents the aspiration of youth as a potential vision of the future. Youth Council members are voted into their position by their peers which are 10 to 21 year old citizens. The Youth Council has at a minimum 2 (one male and one female) members representative in the General Governing Council.

Finance and Commerce

***Position** - Current Financial Institutions facilitate corruption and manipulate the wealth of Nations and individuals through monopolies and "too big to fail" mind sets. The Internet has made it possible to transact commerce around the world with the emergence of digital currency where the value is determined by agreement and in support of digital services. Today, the majority of national currencies are reflected in digital formats. Digital currencies and digital financial transactions are the circulatory system of local, national, and international commerce.*

Digital currencies offer the ability to break free from existing currency monopolies of central banks. There are several virtual worlds where players interact using cyber currency in order to transact a form of commerce within computer generated nations. These electronic barter instruments are being exchanged for real world currencies. Innovative barter instruments have been in place for decades with the advent of loyalty programs where points are redeemable for goods and services. In addition, account-less debit cards are available that act no differently than an anonymous cash transaction with the added ability to create new currencies with respective exchange rates.

Finance and Banking Systems have operated without integrity for the benefit of the bankers who have used other people's assets to financially enrich themselves as if it were their own personal treasures. In addition, many wealthy individuals strive to collect and horde wealth which restricts the possibility of expanded prosperity much like restricting the blood flow to limbs and organs. Financial resources are the life blood of economic development and the ability for all of mankind to survive, thrive, and prosper for the current moment until it is replaced with another barter system. We have the duty and responsibility to create prosperity within OPTIAM and its treaty aligned nations by continuously investing in our people and collective goals and aspirations.

Money, or currency, is designed only to be a barter instrument. Currencies become corrupt when they are transformed into an investment instrument where the value of the currency is determined by traders as opposed to economic reality. Given that currencies are treated as a traded commodity, currency is being taken out of circulation based on speculation as opposed to stimulating economies, funding projects, and providing opportunities for unemployed youth which is the future.

Economics, its expansion and contraction, have been governed by imperial capitalism which strives to create power and control equivalent to nations through the financial clout of monopolistic commerce. In many cases this dominant position is at the expense of humanity and its ability and desire to thrive and prosper. Today greed and bottom-line motives drive companies to misuse technology against humanity and the God given right to thrive and prosper with NO restrictions.

Currencies have a negative energetic connotation of being a method of measuring power, controlling economic parameters, and being considered the root of evil. Current hidden financial systems have monetize, as a traded bond/commodity, the human potential at the time a birth certificate is created. This hijacked GDP contributing potential has been the primary asset backing today's financial systems.

All financial and commerce transaction are built on the foundation and premise of equitable exchanges of energy. No barter instrument or currency will be a traded commodity. All currencies' value is tied to real parameters such as GDP, innovation, expanded value to all sentient life through co-creation/cooperation of "the whole exceeds the sum of its parts".

The Sovereign Nation of OPTIAM puts forth a common barter instrument of the CAPRIAM for trade within, and between Sovereign Entities and allied commercial endeavors. The CAPRIAM energetically represents: capital or the asset value backing the currency; appreciation both in the form of constantly appreciating in value based on continuous expressions of creativity in service to elevating humanity and as a token of appreciation in all transactional exchanges; and the binding aspect of the I AM expression of co-creation and responsibility for the right use of the barter instrument.

The true underlying value is based on levels of energy frequencies. The lowest being the barter instrument and the highest vibration being knowledge and wisdom. In order to establish barter equity, the Sovereign Nations are establishing a global mercantile exchange system that allows participating members to exchange resources, goods/services and transact business in a Global equitable ecommerce environment. All exchanges use the CAPRIAM as an underlying agreed upon barter instrument. The OPTIAM mercantile exchange is a Global Electronic Distribution System that facilitates cost effective ecommerce and is

owned and operated by the Sovereign Nations aligned with OPTIAM and is based on equitable exchanges of energy in providing the service to all of Humanity and ultimately the Galactic Family.

The Global Sovereign Nation of OPTIAM offers a new merchant banking capability that is equitable in the fees it charges merchants and citizens. Ecommerce is governed by a new framework of equitable exchanges of energy governed by a fair electronic transaction processing service and system. Transaction fees are established based on the cost of providing services. This capability eliminates fees tied to the percentage of the price of the item being sold. The system is being developed in order to facilitate cost effective distribution of goods and services beyond local borders. The assets supporting merchant banking are the underlying goods, services, and inventions being exchanged.

Judiciary

***Position** - The United States' legal system illustrates gross inequity and dis-functionality inherent in statutory law and the general degradation to lawlessness. Admiralty and Maritime Law have displaced Common Law and have even skewed the equity of Criminal Law at the expensive of society.*

The judicial system of Rome favored the preservation of society, while the United States leans toward the absolute rights of the individual often at the expense of society. A good lawyer and deep pockets makes it possible for criminal activities to go unpunished. The Supreme Court of the United States is chartered with ensuring that case rulings are within the framework of the United States' Constitution. However, they no longer are the arbitrators of laws that are being passed on daily basis by legislators that are un-constitutional.

The current United States Legal system allows for a trial by jury. However, judges alone are often the sole arbitrators. Trials are supposed to ensure a jury of peers. However, that is rarely the case given the current jury elimination process typically excludes valid peers as opposed to true selection process and a pool of jurors that represent a peer group.

Lawyers today are members of the Bar Association which ties them to the British Crown Court. They are also taught to bring charges into the Civil Court system where there are financial implications. As such, the legal system contributes nothing to the GDP and in fact is a damaging force. Adept trial lawyers have learned to use the art of Conversational Hypnosis, Neuro-linguistic Programming and theatrics to sway juries regardless of the actual truth. The current system also indicts and imprisons people in situations where there is no victim or property damage.

Commerce, and ecommerce, is the foundation for economic growth and for Nations to thrive and prosper. Business transactions are typically based on contracts and contract law. Many of today's contracts are memorializing the intent to commit fraud. Contracts are written using very ambiguous verbiage with the intent to give judges latitude in ruling in the event of dispute.

The Judicial System of OPTIAM is under the umbrella of the Laws of the Universe which desires to create order, harmony, peace and balance. Universal Law includes Spiritual precepts of the Golden Rule which is to treat others as one wants to be treated – and, to treat others such that their Agency of Freewill, dignity, and respect is preserved.

Under Universal Law there are three elements which include: common law for civil disputes; contract law for commercial disputes; and criminal law. Each of these three areas are governed by key aspects of this Constitution.

Common Law is based on common sense. If there is no victim or damages, then there is no crime. The Agency of Freewill allows individuals to do whatever they want to themselves or their property as long as it does not interfere with another's agency of Freewill.

Contracts, including treaties, are only enforceable if they are equitable to both parties; and, if they are written in a language that is unambiguous in memorializing the intent between all parties involved. Intentional breach of contract may entail actual and punitive damages depending on the circumstances of the breach. The most egregious breach is the intent to commit fraud. In the case of intentionally committing fraud all executives, managers, and individuals involved are held financial and criminally accountable.

Criminal law allows each case to stand on its own merits and it treats each case as a unique circumstance. Consequences of criminal behavior include incarceration, shunning, and being listed in a criminal database along with what the criminal act was.

All individuals involved in a dispute have the right to be resolved by a trial by jury. Judges are simply court referees. Defendants and Plaintiffs have the right and duty to tell their story and truth in their own words. It is prohibited to use Conversational Hypnosis, NLP, or theatrics in order to manipulate juries or judges. Any attempted to bribe, intimidate, blackmail, or commit any act of extortion is illegal and will be immediately dealt with under Criminal Law.

The Sovereign Nations of OPTIAM will endeavor to create a pool of jurors that are a true peer group of an equal representation of Plaintiffs and Defendants. Jury selection is a true selection process where each side has the opportunity to pick jurors that are representative of each party.

Bill of Rights and Responsibilities

Position – *We've had the Bill of Rights that enumerated the rights of the individual. What is missing is the responsibility that goes with those rights which is the true aspect of Freedom and Liberty. Freedom, Liberty, and Sovereignty is currently construed as the right to lawlessness.*

1. Right to the unfettered expression of the Agency of Freewill
2. All OPTIAM citizens have the right to free speech with a responsibility to have it based on truth. The broader the reach of the communication, the more responsibility there is to present the truth. National and International News must be based on the truth, the impeccability of the word absent manipulation, contrivance, fabrication, and subliminal programming.
3. Right to privacy and anonymity including all forms of digital content.
4. Right to protect oneself, family, and property including using deadly force.
5. Right to basic survival and health based on clean water, food, and air.
6. Right to a pristine environment.
7. Right of all sentient aspects of OPTIAM including “non human” sentient conscious persons to survive, thrive and prosper.
8. Right to a speedy trial by jury
9. Right to be treated with dignity and respect
